CONGRESS.

Sunday's Recreation Dulls the Solons for Monday's Work---A Lot of Bills.

Business in the Senate Suspended in Respect of the Late Senator Anthony.

A Wabash Train Derailed Near St. Louis, Causing Loss of Life and Great Injury.

Congressional News.

WASHINGTON, Jan. 19.—In the senate Cone introduced a bill to establish a regulate quarantine for a live stock trail and to regulate commerce between the states as to live stock. Referred.

At the conclusion of the morning business Aldrich offered the following:

Resolved, The senate has heard with profound sorrow the death of Henry B. Anthony, late senator from Rhode Island.

Resolved, Business in the senate be suspended to enable his associates to pay proper tribute to his high character and distinguished public services.

HOUSE.

The speaker laid before the house a communication from the secretary of the treasury transmitting an estimate to appropriate $40,000 to meet incidental expenses of United States vessels attending the world's industrial exposition at New Orleans. Referred.

Bills were introduced and referred as follows: By Healy, to indemnify California on account of the indebtedness incurred in the Indian wars.

By Townsend, a resolution asking the president to furnish the house copies of all correspondence relative to the Oklahoma lands in Indian Territory, together with information as to the present condition growing out of the attempted occupation of such lands.

By Curtin, to amend and revise the act to encourage and promote telegraphic communication between the United States and Asia.

By Broadhead, to establish an uniform rate of pension for pilots who served on the United States gunboats during the late war.

By Mills, a resolution amending the rules so that a majority of the members present may suspend rules and pass bills relating to revenues.

By Blount, to enforce the collection of taxes on distilled spirits in bonded warehouses.

By Stumpf, a resolution calling on the president to transmit a copy of the recent appeal of Fitz John Porter with accompanying papers.

By Ward, amending acts to prevent the introduction of contagious diseases. This bill was prepared by a conference of national health officers.

By Phelps, a resolution calling on the president for information as to the imprisonment of Charles Vanbooklen at Port au Prince, Hayti.

NOTES.

The president has decided to nominate Wright, of Massachusetts, as the commissioner on labor statistics.

A court of claims judgment for $12,265 was given in favor of Edgar A. Walse in his suit against the government for furnishing beef to various Indian agencies in 1878.

A life size portrait of the late President Garfield has been purchased, to be placed in the room of the house of the committee on appropriations, of which committee he was chairman while a member of the house.

Dr. Adair, of Indian territory, a Cherokee, was examined by the senate committee on Indian affairs to-day. He said he was president of the association of Cherokee farmers, whose purpose was in leasing vacant lands of the Cherokees. Their agents were authorized to offer $125,000 for the lease, but it was secured by outsiders for $160,000. The impression of the members of the native association was that money was used by their rivals. Cash was a very rare commodity among the Cherokees before the lease was made and about the time it was made, however, the members of the council came to the witness' store with fifty dollar bills to be changed.

WILKESBARRE, Pa., Jan. 19.—Sister Theresa, a niece of James G. Blaine, is rapidly sinking at the convent here. All hopes of her recovery have been abandoned and her sisters in religion have become reconciled to her fate, which can not be averted. She is suffering with brain fever.

Abandoned.

OTTAWA, Ont., Jan. 19.—The Dominion government has abandoned the idea of increasing the strength of the northwest mounted police.

A Fatal Wreck.

ST. LOUIS, Jan. 19.—The Wabash and Toledo train bound for St. Louis, struck a broken rail just north of Venice, four miles from St. Louis, this morning, derailing the combination baggage and express car and smoker. Both were thrown into the ditch. The smoker was pretty well filled with passengers. The remainder of the train remained on the track. There were eight or ten persons injured: United States Express Messenger J. J. Mattocks, an old man of nearly sixty years, fatally. The other injured are, M. W. Hazzet, baggageman, Conductor Ballou, a brakeman name unknown, and the following passengers: W. F. Northrop, Toledo, Mrs. George Lawson, Mrs. D. McFadden, en route for California, Michael Archrainer, a German emigrant bound for Arkansas, Fritz Zeiffert and August Koehl. The sufferers, with the exception of the express messenger, were able with little assistance to walk to conveyances at the depot.

Thousands Dying.

AUSTIN, Tex., January 18.—General Brinkley Otel, one of the largest cattle owners in the State, arrived here today from the Sweetwater locality, where so many cattle are reported as having drifted. He says that the reports have not been exaggerated, and that against the wire fencing running along the Texas Pacific west of Fort Worth there are over 100,000 head of cattle, and they are dying at the rate of nearly 1,000 a day—from cold, hunger and thirst. The situation, he says, is simply dreadful. The cattle will not turn against the north winds and seek other sections for food, and there is not sufficent help in that locality to turn their heads and drive them elsewhere. At present no effort is being made to drive them out, and unless something is done with but little delay the immense herds in that section must soon dwindle to nothing. Most of the cattlemen at the meeting of the Live Stock association in this city left for their homes this morning, and it is thought that they may make an effort to save the herds now in such sore distress, whether they own them or not. No effort at concerted action was made while they were here.

Sad Fate of Geo. Moxley, of Hampton, Ky. —Sudden Attack.

CAIRO, Ill., January 18,—A case o singular madness and death is reported from the town of Hampton, Ky. Geo. Moxley, a prominent and wealthy citizen of Livingston county, while quietly reading in his parlor Wednesday afternoon, suddenly became wild, and with frightful shrieks, threw himself upon the floor, rolling over and over, and then, bounding to his feet, began to demolish the windows and furniture with a heavy iron poker, all the while uttering the most blood curdling howls and cries. His wife, in a paroxysm of fright, called in neighbors, Wm. Fleming and son, who found the maniac entirely nude, having torn his clothing to tatters, casting it into the fire. As they approached he threw himself upon all fours and rushed at them with threats and howls. He was captured and bound, but broke the ropes as though they were cotton cord. Seven stout men finally secured the poor victim, who lingered until last night when death relieved him. The deceased was quiet and unobtrusive and not given to drink, and the malady did not partake of the nature of rabies.

Kate Castleton in Trouble. "But for Goodness Sake Don't Say I Told You."

WINNIPEG, January 18.—The performance of Kate Castleton's company in the opera house here last night was interrupted by an out break on the part of Harry Phillips, Kate's husband and manager. He, it is said, obtained possesion of money sent to her from San Francisco, and got drunk at the close of the first act. Kate asked him for the remainder of money. He responded by felling her with a blow which rendered her insensible for some time. Afterwards he broke into her bedroom, revolver in hand, threatening to kill her. He was arrested and spent the night in the police station. Miss Castleton's diamonds were found on his person and returned to her. Phillips was bailed out and the whole company left to-night for the south.

Indians Found Frozen to Death.

ST. LOUIS, January 18.—Advices from the Kiowa Indian reservation, Indian territory, are to the effect that those Indians are in a distressed and suffering condition, notwithstanding the aid furnished them by the government. Five members of this tribe, evidently a hunting party, were found frozen to death some forty miles north of Wichita Falls late Friday evening.

Lost with Two Hundred and Fifty Souls on Board.

SAN FRANCISCO, January 18.—The steamer Arabic, which arrived this evening brings Hong Kong dates, December 23d; Yokohama January 4th. Fears are entertained that the steamer Charles Townsend Hook, which sailed for Sargon and for Hong Kong, has been lost with two hundred and fifty souls aboard.

Buried in an Avalanche.

VIENNA, January 18.—Klagenfurt, capitol of the province of Corenthia, in southern Austria, was visited by an avalanche to-day, which wrecked several buildings and killed twenty inhabitants. Many others were injured and rendered homeless. All efforts to rescue the buried were futile.

AN HOLOCAUST.

An Insane Asylum in Illinois Burns and Thirteen Unfortunate Inmates Perish.

The Bodies of the Dead Burned into Charred Masses and Beyond Recognition.

The Shrieks of the Maniacs---Heroic Conduct of Attendants---The Scenes of Horror.

A Destructive and Fatal Fire Visits the Insane Asylum at Kankakee, Ill.

KANKAKEE, Ill., January 18.—The south infirmary of the Illinois Eastern Hospital for Insane, burned this morning at 4.50. The fire originated in the furnace room, and had secured a strong headway before it was discovered. The woodwork of the building, being of southern pine, burned rapidly. The building was occupied by forty-five patients, six attendants and one night watchman. Seventeen patients are missing. Thirteen bodies have been recovered. They are burned beyond recognition. All of the patients were infirm and incurable. The bedridden ones were rescued first and those who were able to help themselves didn't realize the danger and they were the ones who perished. The attendants lost their personal effects and many narrowly escaped with their lives, one of them having to tie bed clothes together to escape. There were no facilities for putting out the fire, the State not having made any appropriation.

The building was a new one and cost about $76,000, and is a total wreck. The following perished:

Henry Brown, of Rock Island; H. W. Belden, of Galesburg; George Bennett, of Morris; Josh Colbert, of Chicago; Orlando Ellis, of Pontiac; J. W. Galoway, of Macaupin; Thomas Hickey, of Springfield; Matthew Hague, of Chebasie; I. Haskner, of Stevenson county; Thomas Horeby, of Chicago; John Johnson, of Vermillion; Michael Jordan, of Chicago; J. Nathan, of Chicago; A. Runyard, Winnebago county; C. Strotz, of Chicago; J. W. Tyler, of Chicago; F. Weymouth, of Putnam county. Thomas Herely was a son of State Senator Herely. The building was a two story stone and brick with no wood about it except the floors and stairways. It was completed last August. It was used as an infirmary with forty-six insane inmates; twenty-four on the first floor, and twenty-two on the second. Attendants Brown, Rose, and wife were sleeping on the second floor. Attendants Reid, Williams and fireman Labarge slept on the first floor. The building was heated by hot air furnaces. It was twelve degrees below zero when the watchman, named Cobb, discovered smoke issuing from the floor immediately above the furnaces.

He awoke the attendants. The flames at one became drawn through the hot flues and along the halls and stairways to all parts of the building. The fire spread so rapidly that all efforts to save the building, in the absence of a fire alarm to summon help, and for the want of facilities to quench the flames, were found to be in vain. Attendant Reid began dragging and carrying out the inmates. Many of the patients, clad only in their night clothing, rushed into the bitter cold. Mr. Reid, at the risk of his own life, struggled on until twenty of his twenty-three patients were rescued, when he became exhausted and was carried away. On the second floor attendants Rose and wife heard the alarm and escaped down the stairway just before it fell. Attendant Brown was sleeping on the same floor, and was awakened by smoke, and attempted to save a patient in an adjoining room, but failed, and sliding down by means of a sheet from his window, jumped to the ground. Superintendent R. S. Dewey reached the scene, and with ladders climbed to the second story windows, smashed them and was able to rescure some patients thereby.

Almost all the patients refused to co-operate in the efforts being made to save them and were only rescued by being dropped from the flames and forcibly prevented from returning.

A marvelous escape was that of an inmate who fell with the second floor, struck the burning debris above the furnace and bounded through a window to the ground uninjured. The remains of twelve patients have been taken out. They can only be identified by the location in which they were found. The dead thus identified, with ages and residences, were at the coroners inquest this afternoon. Superintendent Dewey had asked the legislature two years ago for $2,500 to protect these wards from fire. One thousand dollars was allowed, all of which was used in mains and hydrants. The amount was insufficient to answer the purpose. He suggested that the floors about the hot air furnaces be changed, it being shown in evidence that it was but four inches from the outside and ten inches from the inside of the furnace to the pine joists. He gave two reasons for a great number of deaths, first the patients were almost all sufficated by smoke before they could be reached, and second, inability or unwillingness of the insane patients to help themselves. The remains, with one exception, did not aggregate each, but a little more than a handful of charred ashes. The entire remains of ten of the victims were spread on a small table two feet square.

Friends are arriving in search of lost ones. The scenes on their arrival and a view of the remains necessarily is very heart-rending. Telegrams are pouring in from all parts of the state from parties asking as to the safety of their friends among the inmates of the hospital.

The coroners jury, which adjourned until to-morrow afternoon, will investigate as to whether the furnaces were defective.

The fact that there is no general alarm between the various buildings of the hospital, or any system of waterworks to protect life and property, accounts largely for the very large loss of life.

H. W. Belden, aged fifty, of Galesburg, one of the victims and the only one whose remains preserved even the semblance of a human being, was a prominent man in his section of the state. He was on the second floor, an invalid and was unable to help himself. Superintendent Dewey aided by an attendant placed a ladder to his window. Dewey ascended and broke the glass with his hands. In the meantime Belden's shrieks for help were loud and agonizing. As soon as the cries died away the smoke and flames poured from the windows so that no help could be given him. Dr. Dewey hearing calls for help from another window hurried to the rescue and though a man of light build, dragged a 180 pound patient through the window and bore him safely to the ground.

The burned building was used as an infirmary, many of the inmates being unable from sickness to walk. The only chance for obtaining water was from the small wash stand faucets not even fire buckets or barrles being on hand. Night watchman Cobb testified before the conorers jury that he regested a report of his call every half hour. The register showed that he visited the furnace room at 3:40 and found it all right then, and at 4:10 he discovered the fire. The floor immediately over the furnaces had frequently been noticed by the attendants sleeping there to be so uncomfortably hot that the furnace was roofed with sheet iron covered with two layers of bricks laid in mortar, with a space of but six inches between them and the pine.

Attendant R. C. Williams testified that five minutes after the fire was discovered it was blazing through the floor. On being roused he ran outside and saw the fire was only visible about and around the furnace.

Attendant J. C. McFarland, outside night watchman, testified he heard the cry of "fire" and aroused the attendants of wards number five and six, and carried two ladders to the burning building from the carpenter shop 100 yards away.

Driving Out Thugs, Who Don't Drive.

PORTLAND, Ore., January 18.—The town of Huntington, which is just on the borders of Idaho and Oregon, and the point of juncture of the Oregon railway and Navigation and Oregon Short Line railroad, has been infested by a gang of thieves, gamblers and roughs ever since the completion of the railroad terminating there. As the desperadoes grew short in finances, in consequence of drink and dispation, they became desperate in their manifestations, threatening bodily harm to those refusing what they called for. Citizens of the place finally became indignant, and a few days ago held a public meeting. Over 300 citizens attended, posters were printed, signed "Committee of 300," and distributed about town notifying all roughs to leave the place at once or abide the consequences. Instead of obeying these orders the roughs organized and prepared for any emergency that might arise, and as far as can be learned at present are holding their ground. The sheriff of Baker county, Oregon, with a posse, is now on the scene, and this matter will probably terminate without shedding blood, but a very serious collision is feared.

She Loves Him Still.

ST. JOSEPH, Mo., January 18.—Wm. A. Sutherland, who is confined in the county jail here for attempting to murder his 15-year-old sweetheart, Edna Morrow, near Rockport, Atchison county, in October, by shooting her twice with a revolver because she refused to elope with him, and who has made several attempts on his own life by swallowing poison and pounded glass, has received a letter from Miss Morrow, who has about recovered from her wounds, in which she says she will not appear in court against him, and will marry him whenever he is free. Her mother has a violent hatred for Sutherland, and will endeavor to force Edna to testify against her lover, but Edna says she will die rather than convict the man she loves.

A Quick Capture.

WHEELING, January 18.—Last night Louis Volhardt's residence, in Wellsburg, was entered and $1,500 in bonds and $1,000 in cash stolen. John Herdington, Chas. Volhardt, Posey Cheek and a woman were arrested and $900 in cash recovered from Herdington. The bonds were burned by the thieves.

The Coldest Day Yet.

CHICAGO, Ill., Jan. 19.—This has been the coldest day of the year in this city, the thermometers ranging from nineteen to thirty degrees below zero. The signal service thermometer quoted nineteen degrees below zero. The same condition of affairs prevails throughout the state, but in the northwest the weather is milder as compared to that of twenty-four hours ago. Winnipeg is quoted at nineteen below; Jamestown, sixteen below; Fargo, seventeen below; St. Paul, nineteen below.

They Understand Johnny Bull's Motive.

BERLIN, Jan. 17.—Baron Lambermont's report to the Congo conference embodying the English proposals regarding the neutrality and laying down of formalities to be observed by the powers annexing African territory is considered a further step to England's advantage. There is a general suspicion on the part of the delegates, and Germany regards the report with little favor.

The New York United States Senatorship.

ALBANY, N. Y., Jan. 19.—Crowds of politicians are assembling at the Delavan, Evarts' headquarters. The attendance at the Morton headquarters is not so large. The great subject of discussion is whether the ballot to be taken this evening in the caucus will be viva voce or be secret. The strength of the opposing parties will be accurately tested by a vote on this question. The Morton men are for a secret ballot and the Evarts men for an open one.

War in Egypt.

LONDON, Jan. 19.—Excitement was caused yesterday by an unusual occurrence of council at the war office, on Sunday, which greatly increased to-day by a report that the government had decided to resist any attempt on the part of Turkey to occupy any portion of Egypt or to land troops in that country. There is considerable bustle and excitement at the war office to-day. Orders have been sent to Chatham, Portsmouth and Woolwick which caused much activity at the great naval stations. Another battalion of troops at Malta have been ordered to embark at once on the steamship Poonah for Alexandria. Other troops, under orders, are ready to move at a moment's notice. Indications all point to stirring events in Egypt. There is no doubt that the ministry are determined not to allow Turkey to interfere in Egyptian affairs by placing an armed force in any portion of Egypt.

The Fire Record.

BATTLE CREEK, Mich., Jan. 19.—A fire yesterday destroyed the Vineyard roller rink and six adjoining buildings. It originated in the rink and is supposed to be the work of an incendiary. The thermometer registered at twelve degrees below zero and the firemen had great trouble in getting to work. The loss is estimated at $25,000. Insurance only $2,000.

PITTSBURG, Pa., Jan. 19.—A natural gas explosion occurred this morning at Sharpsburg, five miles east of this city, which set fire to Moorhead Bros. & Co.'s Vesuvius iron works. The fire is still raging, other buildings having taken fire from the burning mill Engines from Allegheny and this city have been sent to aid in controlling the fire.

A Train Wrecked.

ST. LOUIS, Jan. 19.—The Wabash train from Chicago met with a serious accident about ten miles east of East St. Louis this morning. It is reported here that twelve persons were more or less seriously injured. There are no further particulars yet.

All Have Been Rescued.

LONDON, Jan. 19.—The eleven persons who were missing of the ill fated packet, Admiral Moorsom, have been rescued, in an exhausted condition. They had been in a boat since Thursday night.

THE INDIANA LEGISLATURE.

The bill to prohibit base ball playing on Sunday has been reported favorably to the house by the committee on rights and privileges of the inhabitants of the state.

An attempt to constitute a special committee on fees and salaries in the house failed, the standing committee wishing to keep a tight grip on that question themselves.

The constitutional amendment bill (S. B. No. 26) was reported back to the senate by the judiciary committee, with a recommendation that the bill be indefinitely postponed. The bill was made the special order for next Wednesday, 2 p. m.

Representative Staley, of Clinton, is the introducer of a bill providing for a state board of pharmacy, and requiring all persons selling drugs to employ a person duly qualified and having passed satisfactory examination.

Senator Sellers has introduced a bill to repeal the section requiring the holding of monthly township institutes. He contends that the compulsory attendance of teachers at these institutes is a hardship, as they are not paid for the time required for attendance, but are compelled to lose a day's pay if they fail to be present without adequate excuse.

The bill of Senator Smith, of Jennings, on the right of aliens to hold realty was reported from the judiciary, with amendments to the effect that aliens taking out first papers shall hold real estate, and all aliens may hold real estate by devise or bequest, and convey the same. Aliens inheriting real estate and not conveying the same to some citizen within five years shall forfeit such real estate to the State of Indiana. A futile attempt was made to suspend the rules and pass the bill forthwith.

When the house adjourned Saturday 150 bills and 30 resolutions had been introduced. In the senate 112 bills and 22 resolutions have been submitted.

Representative Eley, of Adams, has introduced a bill fixing the fees of coroners at $6 for the first day of holding an inquest and $2.50 for each additional day.

Dr. Elder insists that pleuro-pneumonia does exist among the cattle of Illinois, Ohio and Kentucky, and thinks the legislature should pass a law to prevent it from entering this state. He has the highest authority of the country for this.

The judiciary committee of the house Friday reported favorably the bill of Mr. Brooks, of Allen, to increase the bond of the state treasurer from $150,000 to $1,000,000. The report of the committee was agreed to, with the understanding that the bill may be amended on its second reading.

The bill introduced by Senator Bailey, providing for the appointment of a state boiler inspector and the establishment of a board of engineers who shall examine and grant licenses to engineers of steam boilers, is a measure most earnestly advocated by the engineers of the state on the ground that it will be in the interest of efficient service and public safety.

FREE GRAVEL ROADS.

The *Gazette* in a recent issue editorially announced that there was a ring forming in this city for the purpose of purchasing the turnpikes leading into the city, and then foist them upon the county at an advance of the price paid. It is not reasonable to presume that the *Gazette's* information came from any reliable source. Under existing laws no such scheme could be made profitable. To secure a free gravel road a petition must first be filed by a majority of the citizens within two miles of either side of the contemplated route. An election may then be ordered by the county commissioners, and in this election it requires the majority of the votes of property holders in the townships through which the road runs to secure it. Then three citizens are ordered to appraise the value of the road and it is then purchased in the following manner: The property holders within two miles of either side of the road are assessed according to the amount and value of land owned. This assessment is to be paid in eight years' time: the first two years only the interest is paid. It would cost the owner of 160 acres of land only about $15 per annum. After the final payment for the purchase of the road is made, it is kept in repair by a general assessment in the county.

It is therefore very evident that there could be nothing but loss in such a scheme suggested by the *Gazette*. An appraising committee of three farmers are not going to put an undue value upon the road and their appraisement will almost inevitably be less than the amount paid in an original purchase. When it is taken into consideration that it costs a farmer but little less than a dollar to drive in the city from Maysville and corresponding rates from other points, the advantages of free pikes are patent. The city and county would be so highly benefitted thereby that it would be more to the credit of the *Gazette* to encourage the enterprise rather than publish unwarranted articles which tend only to injure the project.

Quack doctors, electric belt and other swindlers who live by frightening our young men and young women by nasty circulars, will find their occupations gone when it becomes generally known that Dr. Guysott's Yellow Dock and Sarsaparilla is a certain cure for all weakness of the urinary organs, nervousness, etc. Obey the laws of health, take a few bottles of this simple remedy and you will soon be restored to perfect manhood and womanhood, free from all worriment of mind and distress of body.

Eugenia, ex-empress of France, owns several houses in New York city, the rent of which is a very considerable and acceptable addition to her income.

Cap. Mitchell, of the bark Antoine Sala, New York and Havana trade, came home in May, entirely helpless with rheumatism. He went to the mountains, but receiving no benefit, at his wifes request began to take Hoods Sarsaparilla. He immediately began to improve; in two months his rheumatism was all gone, and he sailed in command of his vessel a well man. Hood's Sarsaparilla will help you. Sold by all druggists.

It is now a favorite pastime of Norwich, Conn., people who have nothing more profitable on hand, to attempt the feat of eating four soda crackers in five minutes.

The Egyptian question is bothering the heads of the European statesmen, and the newspapers are full of the discussion. It would take columns of the newspapers to hold all the testimonials to the value of Mishler's Herb bitters, the great cure for dyspepsia, kidney and liver diseases, cholera morbus, cramp, colic, dysentery, diarrhea and impurities of the blood. Three doses cured the little child of Henry Fisher, of Duncannon, Pa., of a severe case of diarrhea.

JAMES JACKSON, Chief Justice of Ga.

AN AGED BAPTIST MINISTER.

Two More Important Cases.

Your agent being in Columbus, Ga., a few days ago, and meeting the venerable brother J. H. Campbell, we asked him for the news. His reply was, "I have two more important cures effected by Swift's Specific to report." This venerable man is known far and wide for his unremitting labors of love in the behalf of the poor of Columbus. It will be remembered that the Swift Specific Co. has donated quite an amount of their famous medicine, to be distributed by Mr. Campbell among the poor of the city; hence his remark. He said:

"I have just cured a lady who has been greatly annoyed by a Tetter in one of her hands. It had given her much trouble and pain. She said she had been treated by several physicians during the past three or four years with the old remedies, but without giving any relief. I suggested Swift's Specific, and she took four bottles and is now apparently perfectly well. Her hand is smooth and not a single sign of the disease left. It is marvelous how this medicine renovates the system."

"What about the other case?"

"Well, that was a lady also. She had been affected with the eczema for four years. Her face, hands and arms, as well as her body, was covered over with sores and scabs. It was one of the worst cases of this terrible disease that I have ever seen. The sufferings of the poor creature was beyond expression. She tried every remedy at command, including mercury and iodide of potash, but the only grew worse. She was in this condition when I first saw the case. I soon had her taking Swift's Specific, and she has now only taken two bottles, but every mark of the disease has almost entirely disappeared. Her strength and general health have greatly improved. It is one of the most remarkable cures that has come under my observation."

Mr. Campbell, you have had a long and varied experience in mingling with men, and observing their sufferings, and the remedies used—what is your opinion as to the merits of Swift's Specific?"

"In a ministry of sixty years I have mingled with every class of society, and have observed closely the variety of diseases which afflict humanity. Blood diseases are the most numerous and the most difficult to remove. It is my deliberate judgment that Swift's Specific is the greatest blood purifier ever discovered. There is nothing comparable to it. There is nothing too good to say about Swift's Specific."

The Striking Pittsburg Brakemen Resume Work on Promise of Favorable Legislation—Henry Colerick Drafts the Bill.

THE SENTINEL is pleased to announce the strike at an end, and while it has not attempted to, nor could it justify the course of the strikers, it has not counselled violent opposition to the poor fellows who work for about $4.50 a week. The controversy was a serious one and its peaceful solution is something to be proud of, and quite an honor to Mr. Henry Colerick who did more than any other man to accomplish that end.

A committee of the strikers yesterday agreed to suspend hostilities and go to work on the assurance that none of the strikers would be discharged, and furthermore that a bill to ameliorate their grievances be submitted to the legislature for approval.

Fires were kindled in all the Pittsburg locomotives last night and before 6 o'clock this morning every freight train was out of the city en route east and west. The double-headed system will not be abolished and the railroad company has made its point.

The withdrawal of the Pennsylvania Railroad company from the passenger and freight pool will open the Pittsburg road to free competition and lively business may be expected from Chicago this week. A reduction in freight rates was made by all the pool lines Saturday and as this stimulates shippers, every bit of rolling stock on the Pittsburg will be moving to-morrow. This will give employment to brakemen recently discharged and cause the shops of the company here to resume operations.

The pay car comes to-morrow and the employes will be paid and the hoodles will heal up the ill feeling that the recent labor troubles have created. The grand jury convenes to-day but will not touch the strike in view of the friendly settlement, although it was called for a serious purpose.

In a communication to the *Gazette*, Mr. Henry Colerick, the brilliant city attorney, and the man who never betrays a friend or a trust, gives the law which the strikers hope the legislature will enact for their relief. Mr. Colerick explains his position and will go to Indianapolis in the interest of the act he submits below. Says Mr. Colerick: "In yesterday's edition of the *Gazette*, in speaking of the strike, you say the city attorney gave the boys some 'sop' in promising legislation in their interest. In saying that I offered them 'sop' you insinuate that I was insincere. I was never more in earnest in my life. I am now, and ever have been, the friend of this class. I prefer their friendship to that of the other class. I have always found that the humble and the poor are grateful, and their friendship is an honor that any man may feel proud of. I did all I could to assist in wiping out the odious garnishee law, and have prepared the following act which I will give the democratic party an opportunity to place themselves on record by passing or defeating in the present legislature. Before the election every candidate is the poor man's friend. We now propose to find who is and who is not the friend of labor. The following is the bill:

An Act to Provide for the Safety of Railroad Employes.

Section 1. Be it enacted by the general assembly of the state of Indiana, that it shall be unlawful for any railroad company, or other company operating railroad tracks in carrying freight through or in the state of Indiana, to haul or pull any train of cars with freight with a less number of brakemen than one brakeman for each number of cars less than twelve.

Sec. 2. It shall be unlawful for any railroad company or companies operating railroad tracks within the state of Indiana, carrying freight in or through the state of Indiana, to cross over any culvert or bridge with two locomotives in succession and at the same time.

Sec. 3. Any conductor, engineer, railroad superintendent, manager or other agent directly or indirectly, who shall violate any of the provisions of this act shall upon conviction be fined in any sum not to exceed $500, to which may be added imprisonment in the county jail not to exceed six months.

Sec. 4. Whereas, an emergency exists for the immediate taking effect of this act, it shall be in force and take effect from and after the passage of this act.

By the passage of the above bill railroad men will be no longer slaughtered like cattle or worked like beasts.

Respectfully, &c.,

HENRY COLERICK.

Roller Skate Flirtation.

The following note, in a dainty hand, explains itself:

To the EDITOR of THE SENTINEL:

We girls are awfully tired reading poetry about roller skating, won't you give us the roller skating flirtation.

EVA.

THE SENTINEL cheerfully hastens to comply with Miss Eva's request and submits the following as the correct thing for the fair creatures to catch on to: Lying on the right side, "my heart is at your feet." Lying on the left side, "I have money in bank." Standing on your nose, "I have no objections to a mother-in-law." Jumping on the skates, "I'm afraid I can't trust you." Lying on your back, "assist me." One leg in the air means, "catch me." Two legs in the air means, "mashed." One skate in your mouth, "too full for utterance." Hitting the back of your head with your heel, "I am gone." Suddenly placing your legs horizontally on the floor like the letter V., indicates, "I am paralyzed." Punching your neighbor on the stomach with your left foot, "kiss me, if you don't he'll hit you." A backward flip of the heels and sudden cohesion of the knees to the floor indicates, "a suppliant."

Hiram D. Maxfield, formerly of Silver Springs, R. I. has no doubt about the wonderful curative powers of Kidney-Wort. He was so afflicted with kidney complaint that he could not stand on his feet from pain and weakness. As soon as he commenced using Kidney-Wort he experienced immediate relief and at once began to grow strong and was relieved of all pain and unpleasantness. He says: "I know I have been cured by Kidney-Wort."

BELVA OUR GUEST.

Miss Lockwood Dines at the McKinnie House and Says that She Loves Fort Wayne.

Miss Belva Lockwood, the defeated candidate for president, was in this city for twenty minutes at noon. The lady, accompanied by her secretary, came in on Pittsburg passenger train No. 1, and sat down to dinner at the McKinnie house. THE SENTINEL representative was on deck as usual and secured an introduction to Miss Belva.

"Yes; I do wish to say something to the people of Fort Wayne," responded the lady to an inquiry, "because I received votes here at the general election. I want to thank the good people who voted for me and say that I love the community in which they live; and another thing, if my memory serves me right, I received many kind suggestions from Messrs. E. L. Chittenden and Joseph Clark. They spoke in the warmest approval of the cause I represented and I will later strive to enlist their sympathy in my effort to have the vote of Indiana counted for me."

"Is that your mission now?" ventured the reporter.

"Oh, no. I am en route to Monmouth, Illinois, to lecture."

At this juncture the train started and the newspaper man had to climb down. Miss Lockwood is advanced in years. Her face is furrowed and her hair quite gray. She has a sharp eye and is altogether a remarkable woman.

AMUSEMENTS.

"Girofle-Girofla."

The Wilbur Opera company presented "Girofle-Girofla" at the Temple, Saturday evening. The Wilbur Opera company has been attracting large audiences elsewhere but possibly this is owing to the reduced price of admission. The rendition of "Girofle-Girofla" here was not a success, viewed from a critical standpoint. Miss Susie Kirwin sings passably well, but what ability she may have as an actress is spoiled by an overwhelming amount of self-conceit, which seems irrepressible. Her chief idea of humor lies in kicking the trail of her dress with a kick unlike anything ever seen here before. The support was not up to the usual standard. The costumes were elegant and the stage mountings superb. There was no orchestra and hereafter when an opera is to appear at the Temple, the management will do well to announce a full orchestral accompaniment, if such be the case. Otherwise the public is advised to bring refreshments to occupy the time between acts.

THIRTY-NINE LASHES.

The Punishment Inflicted on the Slanderer of a Lady.

AMERICUS, Ga., January 18.—Thirty-nine lashes and the signing of an affidavit that he was a malicious liar is the penalty which G. W. Murphy has just paid for slanderous remarks concerning a respectable lady. On the 8th of January, Murphy told a slanderous tale to several companions, which was subsequently conveyed to the friends of the lady whose reputation was at stake. They promptly held a council of war and decided to hold Murphy to account. He was first taken to the office of Clerk Pillsbury, of the superior court, where he affixed his signature to a card stating that what he had said was "a base and malicious falsehood." He was then taken to a secluded spot, where, his shoulders were stripped, a cow-hide was used with such effect as to draw yells of pain from the wretch. When fifteen lashes had been administered he begged and pleaded for remission of the balance, but it was not until the entire thirty-nine had been given that he was turned loose with the admonition to get out of the way. The parties alleged to have administered the chastisement are very secretive, but one of them was heard to say exultingly, "Simon Cohn did the cow-hiding like a veteran."
